

YEAR 5 TERM 4 2017

Dear Parents & Carers,

We hope all families have had a lovely break over the holidays. Year 5 have a busy and exciting term ahead!

Here is a brief outline of our term ahead:

RELIGIOUS EDUCATION - This term we will be learning about being people of prayer. Through this, students will be encouraged to engage in prayer experiences that will nurture their relationship with God and allow them opportunities to respond to God's call to be disciples.

LITERACY – Our focus this term will be practicing our skills in publishing a wide range of texts. The students will be investigating different language structures and features, and the way they influence an audience. We will also continue to do voluntary free reading and writing, whilst also focusing on Grammar and Spelling.

MATHEMATICS - We will be covering all strands of Mathematics this term through investigations and learning projects. We will continue to practice our Maths Mentals through homework tasks and iPad applications. Our goal is for all students to have all their times tables learned by the end of the year. This may require extra practice at home.

GEOGRAPHY - Our geographical inquiry this term ventures into bushfires and the impacts they have on the land and communities.

SCIENCE - 'Light Shows' is our scientific inquiry this term. Through this, we will investigate how the properties of light directly affect people's lives.

CREATIVE ARTS - Our Creative Arts this term will include a focus on cross-curricular activities and celebrating Christmas.

PDHPE – Students will be participating in Touch Football, Gymnastics, Swimming, cricket and Basketball with Mrs Ryals.

Health – The children will be introduced to strategies for dealing with life changes and safe practices that are appropriate to a range of situations and environments with Mrs Jacqui Bolger.

HOMEWORK – Will continue to be handed out Friday and due Thursday.

Homework this term will include:

- Reading – record in your diary daily.
- Spelling – activities using students' words.
- Maths – selected sections aimed at challenging students to extend themselves.

We look forward to sharing the learning journey with you,

Mrs Alison Smith, Mrs Erin Rumble & Mrs Jacqui Bolger
